<b>Background Papers/ Appendices</b>	<b>Appendix A</b> – Annual Risk Based Internal Audit Plan 2017/18

## Background

1. The work of Internal Audit is carried out in accordance with, and is assessed against, the Public Sector Internal Audit Standards (PSIAS) 2016. These Standards require the Chief Internal Auditor to produce an Annual Risk- Based Internal Audit Plan to determine the priorities of the internal audit activity. The proposed activity should be consistent with the organisation's priorities and objectives and taking into account the organisation's risk management framework, including risk appetite levels set by management and internal audit's own judgement of risks.
2. To ensure that an effective Plan was developed, a consultation process took place with The Audit and Standards Committee, Corporate Team and Service Managers to establish priorities. The proposed activity from all sources was collated and matched against the internal audit resources available and prioritised accordingly.
3. The Audit Plan is stated in terms of estimated days input to the Council of **515** audit days, which is comparable to 2016/2017. By continuing to apply risk based internal audit planning principles; this level of input, with the ability to commission internal audit resources from current audit framework agreements as required, is considered acceptable to provide the assurance the Council needs. The Chief Internal Auditor will however, continue to reassess internal audit resources required against the Council's priorities and risks and will amend the Plan throughout the year as required, reporting any key changes to the Audit and Standards Committee. The PSIAS also require the Annual Risk Based Internal Audit Plan to be reviewed and approved by the appropriate body which in the case of Stroud District Council is the Audit and Standards Committee.
