Audit Lead introduction

The key messages in this report

Audit quality is our number one priority. We plan our audit to focus on audit quality and have set the following audit quality objectives for this audit:

- A robust challenge of the key judgements taken in the preparation of the financial statements.
- A strong understanding of your internal control environment.
- A well planned and delivered audit that raises findings early with those charged with governance.

I have pleasure in presenting our planning report to the Audit & Standards Committee for the audit of the 2019/20 financial statements. I would like to draw your attention to the key messages of this paper:

Audit Plan

- · We have developed this plan in collaboration with the Council to ensure that we provide an effective audit service that meets your expectations and focuses on the most significant areas of importance and risk to the Council.
- Our basis for calculating materiality is set out on page 5.

Key risks

- We have taken an initial view as to the significant risks the council faces. These have been identified as:
 - Completeness of accruals; This has been further refined following our first year audit from completeness of expenditure in the prior year.
 - Management Override of Controls;
- In addition, other areas of audit focus are identified as:
 - Pension liability valuation
 - Property valuation
 - Value for Money

Regulatory

- Our audit is carried out under the Code of Audit Practice issued by the National Audit Office.
- We will update Management and the Committee with sector and technical updates as they arise.

Responsibilities of the Audit & Standards Committee

Helping you fulfil your responsibilities

Why do we interact with the Audit & Standards Committee?

As a result of regulatory change in recent years, the role of the Audit & Standards Committee has significantly expanded. We set out here a summary of the core areas of Audit & Standards Committee responsibility to provide a reference in respect of these broader responsibilities.

To communicate audit scope

To provide timely and relevant observations

To provide additional information to help you fulfil your broader responsibilities

- At the start of each annual audit cycle, ensure that the scope of the external audit is appropriate.

Review the internal control and risk management systems
Explain what actions have been, or are being taken to

remedy any significant failings

or weaknesses.

- Ensure that appropriate arrangements are in place for the proportionate and independent investigation of any concerns that are raised by staff in connection with improprieties.

Oversight of external audit

Integrity of reporting

Internal controls and risks

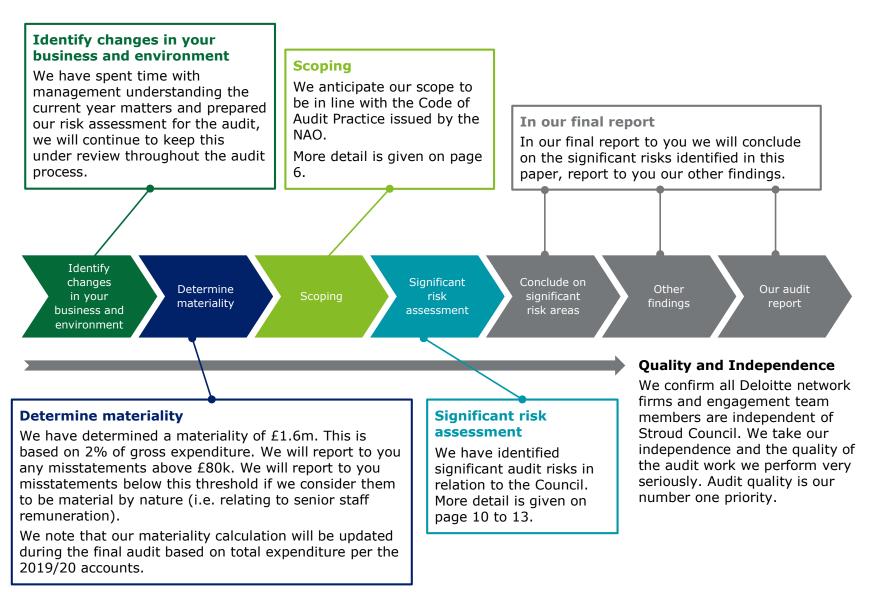

Oversight of internal audit

Whistle-blowing and fraud

- Impact assessment of key judgements and level of management challenge.
- Review of external audit findings, key judgements, level of misstatements.
- Assess the quality of the internal team, their incentives and the need for supplementary skillsets.
- Assess the completeness of disclosures, including consistency with disclosures on business model and strategy and, where requested by the Council, provide advice in respect of the fair, balanced and understandable statement.
- Assess and advise the board on the appropriateness of the Annual Governance Statement, including conclusion on value for money.
- Consider annually whether the scope of the internal audit programme is adequate.
- Monitor and review the effectiveness of the internal audit activities.

Our audit explained

We tailor our audit to your business and your strategy

Scope of work and approach

Scope: we have three key areas of responsibility under the Audit Code

Financial statements

We will conduct our audit in accordance with International Standards on Auditing (UK and Ireland) ("ISA (UK and Ireland)") as adopted by the UK Auditing Practices Board ("APB") and Code of Audit Practice issued by the National Audit Office ("NAO"). The Council will prepare its accounts under the Code of Practice on Local Authority Accounting ("the Code") issued by CIPFA and LASAAC.

We are also required to issue a separate assurance report to the NAO on the Council's separate return required for the purposes of its audit of the Whole of Government Accounts and departmental accounts.

Annual Governance Statement

We are required to consider the completeness of the disclosures in the Annual Governance Statement in meeting the relevant requirements and identify any inconsistencies between the disclosures and the information that we are aware of from our work on the financial statements and other work.

As part of our work we will review the annual report and compare with other available information to ensure there are no material inconsistencies. We will also review any reports from other relevant regulatory bodies and any related action plans developed by the Council.

Value for Money (VfM) conclusion

We are required to satisfy ourselves that the Council has made proper arrangements for securing financial resilience and economy, efficiency and effectiveness in its use of resources.

To perform this work, we are required to:

- plan our work based on consideration of the significant risks of giving a wrong conclusion; and
- carry out as much work as is appropriate to enable us to give a safe conclusion on the arrangements to secure VfM.

Our work therefore includes a detailed ongoing risk assessment based on the risk factors identified in the course of our audits as a potential risk. This is followed by specific work focussed on the risks identified. We have identified the Multi-Service contract with UBICO as an area of audit interest in relation to the efficiency measures in place as there is a risk that they may not be effective and that the contract is not maintained at a cost which can be sustained by the Council's current reserve levels.

We then provide a conclusion on these arrangement as part of our final reporting to you.

Scope of work and approach Our approach

Liaison with internal audit

The Auditing Standards Board's version of ISA (UK and Ireland) 610 "Using the work of internal auditors" prohibits use of internal compliance with requirements: we seek to provide advice on audit to provide "direct assistance" to the audit. Our approach to the use of the work of Internal Audit has been designed to be compatible with these requirements.

We will review their reports and meet with them to discuss their work where necessary. We will review the work plan for internal audit, and where they have identified specific material deficiencies in the control environment we consider adjusting our testing so that the audit risk is covered by our work.

Using these discussions to inform our risk assessment, we can work together with internal audit, where necessary, to develop an approach that avoids inefficiencies and overlaps, therefore avoiding any unnecessary duplication of audit requirements on the Council's staff.

Approach to controls testing

Our risk assessment procedures will include obtaining an understanding of controls considered to be 'relevant to the audit'. This involves evaluating the design of the controls and determining whether they have been implemented ("D & I").

The results of our work in obtaining an understanding of controls will be collated and the impact on the extent of substantive audit testing required will be considered.

Promoting high quality reporting to stakeholders

We view the audit role as going beyond reactively checking evolving good practice to promote high quality reporting.

We recommend the Council complete the Code checklist during drafting of their financial statements.

We would welcome early discussion on the planned format of the financial statements, and whether there is scope for simplifying or streamlining disclosures, as well as the opportunity to review a skeleton set of financial statements and an early draft of the annual report ahead of the typical reporting timetable to feedback any comments to management.

Value for Money and other reporting

The Code of Audit Practice requires us to report by exception in our audit report any matters that we identify that indicate the Council has not made proper arrangements for securing economy, efficiency and effectiveness in its use of resources.

Obtain and understanding of the Trust and its environment including the identification of relevant controls

Identify risks and any controls that address those risks

Carry out 'design implementation' work on relevant controls

If considered necessary, test the operating effectiveness of selected controls Design and perform a combination of substantive analytical procedures and tests of details that are most responsive to the assessed risks

Continuous communication and reporting Planned timing of the audit

As the audit plan is executed throughout the year, the results will be analysed continuously and conclusions (preliminary and otherwise) will be drawn. The following sets out the expected timing of our reporting to and communication with you.

Year end fieldwork **Planning** Interim **Reporting activities** Substantive testing of all Evaluate design and Year-end closing meetings. Planning meetings to inform implementation of key areas. risk assessment; and agree Reporting of significant controls and update on key judgemental control deficiencies. understanding of key Finalisation of work in support accounting issues. of value for money business cycles for any Signing audit reports in responsibilities. changes. respect of Financial Document our understanding of the Council and key Statements. Ongoing communication and feedback

Materiality

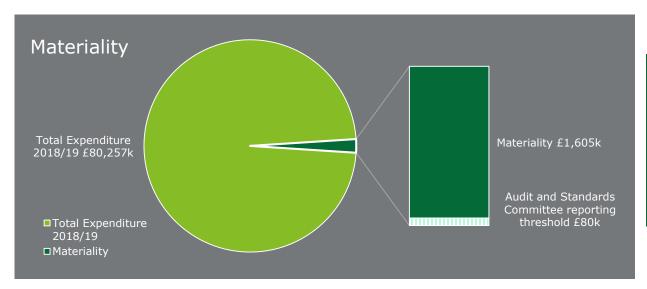

Our approach to materiality

Basis of our materiality benchmark

- The audit partner has determined materiality as £1.6m, based on professional judgement, the requirement of auditing standards and the financial measures most relevant to users of the financial statements.
- We have used 2% of total expenditure based on the Council's 2018/19 audited accounts as the benchmark for determining materiality.
- We will re-assess the determined materiality based on completion of interim audit procedures and the year-end position.

Reporting to those charged with governance

- We will report to you all misstatements found in excess of £80k.
- We will report to you misstatements below this threshold if we consider them to be material by nature.

Although materiality is the judgement of the audit partner, the Audit & Standards Committee must satisfy themselves that the level of materiality chosen is appropriate for the scope of the audit.

Our risk assessment process

We consider a number of factors when deciding on the significant audit risks. These factors include:

- the significant risks and uncertainties previously reported in the annual report and financial statements;
- the IAS 1 critical accounting estimates previously reported in the annual report and financial statements;
- · our assessment of materiality;
- the changes that have occurred in the business and the environment it operates in since the last annual report and financial statements; and
- The Council's actual and planned performance on financial and other relevant metrics.

Deloitte view

Management must carefully consider the principal risks, uncertainties and accounting estimates of the Council.

Expected principal risk and uncertainties

- Property valuations
- · Economic environment
- Demand Led Services
- Funding Settlement
- Regulatory

IAS 1 Critical accounting estimates

- Provisions and contingencies
- Property valuations
- · Pensions Liability

Changes in your business and environment

- There have been significant changes in the leadership of the council including a change in the director set up;
- The result of the national election in December 2019 and the resulting Conservative majority government may lead to changes to local government environment nationally;
- In addition, a local election is expected to take place prior to the year end which may result in changes in the councils plans and / or direction; and
- The UK is due to leave the European Union on 31st January 2020, it is not clear what the impact of this will be.

The next page summarises the significant risks that we will focus on during our audit.

Mediam Level of Judgemen

D+I: Assessing the design and implementation of key controls

Risk 1 – Completeness of Accruals

Risk identified

Under UK auditing standards, there is a presumed risk in respect of revenue recognition due to fraud. We have rebutted this risk, and instead believe that the fraud risk lies with the completeness of expenditure, particularly in relation to year-end accruals.

There is an inherent fraud risk associated with the under recording of expenditure in order for the Council to report a more favourable year-end position. There is therefore a risk that the Authority may materially misstate its expenditure through the understatement of accruals in an attempt to report a more favourable year end position.

Our response

Our work in this area will include the following:

We will obtain an understanding of the design and implementation of the key controls in place in relation to recording completeness of accruals.

We will perform focused testing in relation to the completeness of accruals by completing focused unrecorded liability testing; and

In addition, we will review the year on year movement in accruals and will investigate any significant movements.

Risk 2 – Management Override of Controls

Risk identified In accordance with ISA 240 (UK and Ireland) management override of controls is a significant risk for all entities. This risk area includes the potential for management to use their judgement to influence the financial statements as well as the potential to override the Council's controls for specific transactions.

> The key judgements in the financial statements include those which we have selected to be the significant audit risks and other audit matters, (completeness of accruals, pension valuations and the Council's property valuations) and any one off and unusual transactions where management could show bias. These are inherently the areas in which management has the potential to use their judgment to influence the financial statements.

Our response

In considering the risk of management override, we plan to perform the following audit procedures that directly address this risk:

We will test the design and implementation of key controls in place around journal entries and key management estimates;

We will risk assess journals and select items for detailed testing. A sample of journal entries will be selected using computer-assisted profiling based on areas which we consider to be of increased interest. The appropriateness of these journals will be assessed through detailed testing;

We will review accounting estimates for biases that could result in material misstatements due to fraud; and

We will obtain an understanding of the business rationale of significant transactions that we become aware of that are outside of the normal course of business for the Council, or that otherwise appear to be unusual, given our understanding of the entity and its environment.

Other Areas of Audit Interest

Pensions Liability Valuation

Risk identified

The Council are part of the Local Government Pension Scheme operated by Gloucestershire County Council. The Council recognised a combined pensions liability of £37,878k at 31 March 2018 which increased to £48,839k as at 31 March 2019. The Code requires that their year end carrying value should reflect the appropriate fair value at that date. We understand that the Council has undergone a triannual valuation in the year which has amended the funding proportion of the Council.

Hymans Robertson LLP act as the Council's expert actuary, who produce a report outlining the liability and disclosures required for each council.

Our response

We are in the process of carrying out a separate, detailed risk assessment of each of the individual components of the calculation (for example market assumptions, membership data, assets and liabilities) using a developed methodology which takes into account factors such as an assessment of the actuary. We scope our work, including the nature and extent of our actuarial specialists involvement, in a way which responds to this detailed risk assessment. Should our risk assessment change our overall audit approach in respect of testing pensions, we will notify the Committee.

We will confirm the disclosure of the pension figures in the statement of accounts agree with those provided by the scheme actuary.

Other Areas of Audit Interest

Property Valuation

Risk identified

The Council held £314,867k of property assets (land and buildings) at 31 March 2018 which decreased to £301,200k as at 31 March 2019.

The Code requires that where assets are subject to revaluation, their year end carrying value should reflect the appropriate fair value at that date. The Council has adopted a rolling revaluation model which sees all land and buildings revalued over a five year cycle. As a result of this, however, individual assets may not be revalued for four years. There is therefore a risk that that the carrying value of assets not included in the Council's revaluation process in the current year materially differ from the year end fair value.

The property valuation is an area of audit interest as even though the year-end valuations are material they are performed by an independent expert on assets of a unique nature, whereby the valuations should not materially change year-on-year.

Our response

We will understand how the Council assures itself that there are no material impairments or changes in value for the assets not covered by the annual valuation;

We will review any revaluations performed in the year, assessing whether they have been performed in a reasonable manner, on a timely basis and by suitably qualified individuals;

We will use our valuation specialists (Deloitte Real Estate) where considered appropriate, to support our review and challenge the appropriateness of the assumptions used in the year-end valuation of the Council's Land and Buildings; and

We will test a sample of revalued assets and re-perform the calculation assessing whether the movement has been recorded through the correct line of the accounts.

Other areas of audit interest

Value for Money

Risk identified

Under the NAO Code, we are required to report whether, in our opinion: the Council has made proper arrangements to secure economy, efficiency and effectiveness in its use of resources. An overspend of £188k is currently forecast for 2019/20. This predominantly relates to uncertainty around planning income for the year and an increase in temporary accommodation costs.

In previous years the Multi-Service contract with UBICO, the Council's waste management provider, has experienced costs escalating beyond budget due to the uptake in the Council's recycling scheme and the associated costs. The contract value for FY19 was £5,562k, with a final spend value of £5,657k. This resulted in an overspend of £17k. The Council are forecasting an underspend of £59k.

Our response

Our work in this area will include an ongoing detailed risk assessment which will taken into account:

- · A full understanding of the UBICO contract and efficiency measures in place and their related outcomes;
- · High level interviews with senior operational staff and internal audit as required;
- Review of the Authority's draft Annual Report, Annual Governance Statement and Council papers and minutes; and
- · Consideration of the Council's financial results.

Maintaining audit quality

Responding to challenges in the current audit market

This is a time of intense scrutiny for our profession with questions over the role of auditors, market choice and the provision of non-audit services by an audit firm. We welcome the debate and are engaging fully with all parties who have an interest in the current audit market reform initiatives, so that our profession, our people, our clients and most importantly, the public interest, are served to the highest standards of audit quality and independence.

The role of audit	 Public confidence in audit has weakened over recent years and the expectation gap has widened with differences between what an audit does and what people think it should do (largely in areas of internal controls, fraud, front half assurance and long term viability) Deloitte fully supports an independent review into the role of auditors The Government's Brydon Review will consider UK audit standards and how audits should evolve
Would it be better to have audit only firms?	 Deloitte believes that multidisciplinary firms have more knowledge, greater access to technology and a deeper talent pool. The specialist input from industry, valuation, controls, pensions, cyber, solvency, IT and tax services are critical to an effective audit. Our investment in audit innovation, training and technology is greater because of the multidisciplinary model
Is the current audit market uncompetitive?	 We recognise that the competition for large, complex clients is fierce, but we wholeheartedly support greater choice being available to stakeholders There are barriers to entry in the listed market that are significant including the required global reach, unlimited liability, and the high cost of tendering The audit profession has engaged with the Competition and Markets Authority with ideas on how to provide greater choice in the market, and responded to the CMA's suggested market remedies
Independence and conflicts from other services	 Legislation and the FRC's Ethical Standard restrict the services we may provide to audit clients Deloitte invests heavily in systems, processes and people to check for potential conflicts We have governance in place to assess any areas of potential conflict, including where required to protect the public interest Fees for non-audit services to audit clients have fallen since 2008 (17% to 7.3% of firm revenue)
Deloitte	 Deloitte and Audit Service Line leadership are happy to meet the Board and management of our clients with respect to this important debate. We reaffirm our commitment to quality, independence and upholding the public interest Our Impact Report and Transparency Report are available on our website https://www2.deloitte.com/uk/en/pages/about-deloitte-uk/articles/annual-reports.html Our response to the latest AQR report is on slide 24.

Purpose of our report and responsibility statement

Our report is designed to help you meet your governance duties

What we report

Our report is designed to establish our respective responsibilities in relation to the financial statements audit, to agree our audit plan and to take the opportunity to ask you questions at the planning stage of our audit. Our report includes:

- Our audit plan, including key audit judgements and the planned scope; and
- Key regulatory and corporate governance updates, relevant to you.

Use of this report

This report has been prepared for the Council, as a body, and we therefore accept responsibility to you alone for its contents. We accept no duty, responsibility or liability to any other parties, since this report has not been prepared, and is not intended, for any other purpose. Except where required by law or regulation, it should not be made available to any other parties without our prior written consent.

We welcome the opportunity to discuss our report with you and receive your feedback.

What we don't report

As you will be aware, our audit is not designed to identify all matters that may be relevant to the Council.

Also, there will be further information you need to discharge your governance responsibilities, such as matters reported on by management or by other specialist advisers.

Finally, the views on internal controls and business risk assessment in our final report should not be taken as comprehensive or as an opinion on effectiveness since they will be based solely on the audit procedures performed in the audit of the financial statements and the other procedures performed in fulfilling our audit plan.

Other relevant communications

We will update you if there are any significant changes to the audit plan.

Deloitte LLP

Bristol | January 2020

Appendices

Fraud responsibilities and representations

Responsibilities explained

Your Responsibilities:

The primary responsibility for the prevention and detection of fraud rests with management and those charged with governance, including establishing and maintaining internal controls over the reliability of financial reporting, effectiveness and efficiency of operations and compliance with applicable laws and regulations.

Our responsibilities:

- We are required to obtain representations from your management regarding internal controls, assessment of risk and any known or suspected fraud or misstatement.
- As auditors, we obtain reasonable, but not absolute, assurance that the financial statements as a whole are free from material misstatement, whether caused by fraud or error.
- As set out in the significant risks section of this document, we have identified the risk of fraud in relation to the completeness of expenditure and management override of controls as key audit risks for your organisation.

Fraud Characteristics:

- Misstatements in the financial statements can arise from either fraud or error. The distinguishing factor between fraud and error is whether the underlying action that results in the misstatement of the financial statements is intentional or unintentional.
- Two types of intentional misstatements are relevant to us as auditors – misstatements resulting from fraudulent financial reporting and misstatements resulting from misappropriation of assets.

We will request the following to be stated in the representation letter signed on behalf of the Board:

- We acknowledge our responsibilities for the design, implementation and maintenance of internal control to prevent and detect fraud and error.
- We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.
- We are not aware of any fraud or suspected fraud / We have disclosed to you all information in relation to fraud or suspected fraud that we are aware of and that affects the entity or group and involves:
 - (i) management;
 - (ii) employees who have significant roles in internal control; or
 - (iii) others where the fraud could have a material effect on the financial statements.
- We have disclosed to you all information in relation to allegations of fraud, or suspected fraud, affecting the entity's financial statements communicated by employees, former employees, analysts, regulators or others.

Fraud responsibilities and representations

Inquiries

We will make the following inquiries regarding fraud:

Management:

- Management's assessment of the risk that the financial statements may be materially misstated due to fraud, including the nature, extent and frequency of such assessments.
- Management's process for identifying and responding to the risks of fraud in the entity.
- Management's communication, if any, to those charged with governance regarding its processes for identifying and responding to the risks of fraud in the entity.
- Management's communication, if any, to employees regarding its views on business practices and ethical behaviour.
- Whether management has knowledge of any actual, suspected or alleged fraud affecting the entity.
- We plan to involve management from outside the finance function in our inquiries.

Internal audit

• Whether internal audit has knowledge of any actual, suspected or alleged fraud affecting the entity, and to obtain its views about the risks of fraud.

Those charged with governance

- How those charged with governance exercise oversight of management's processes for identifying and responding to the risks of fraud in the entity and the internal control that management has established to mitigate these risks.
- Whether those charged with governance have knowledge of any actual, suspected or alleged fraud affecting the entity.
- The views of those charged with governance on the most significant fraud risk factors affecting the entity.

Independence and fees

As part of our obligations under International Standards on Auditing (UK), we are required to report to you on the matters listed below:

Independence confirmation	We confirm the audit engagement team, and others in the firm as appropriate, Deloitte LLP and, where applicable, all Deloitte network firms are independent of Stroud Council and will reconfirm our independence and objectivity to the Audit & Standards Committee for the year ending 31 March 2020 in our final report to the Audit & Standards Committee.
_	
Fees	Details of the fees proposed for the period have been presented separately on the next page. There are no non-audit fees.
Non-audit services	In our opinion there are no inconsistencies between the FRC's Ethical Standard and the Council's approach for the supply of non-audit services or any apparent breach of that policy. We continue to review our independence and ensure that appropriate safeguards are in place including, but not limited to, the rotation of senior partners and professional staff and the involvement of additional partners and professional staff to carry out reviews of the work performed and to otherwise advise as necessary.
Relationships	We have not other relationships with the Council, its directors, senior managers and affiliates, and have not supplied any services to other known connected parties.

Independence and fees

The professional fees expected to be charged by Deloitte in the period from 1 April 2019 to 31 March 2020 are as follows:

	Current year £ (excluding VAT)	Prior year £ (excluding VAT)
Financial statement audit including Whole of Government and procedures in respect of Value for Money assessment	40,021	40,021
Total audit	40,021	40,021
Total fees	40,021	40,021

Our fees and planned timescales for completion of the audit are based on the following assumptions:

- the financial statements are provided in accordance with the agreed timescales, to the quality expected and have been subject to a robust quality assurance review;
- information provided to support the financial statements is in accordance with the agreed audit deliverables document;
- appropriate accommodation and facilities are provided to enable the audit team to deliver the audit in an efficient manner;
- all appropriate officials will be available during the audit;
- you have all the necessary controls and checks in place to enable the Responsible Financial Officer to provide all the assurances required in the Letter of Representation; and
- Internal Audit's planned programme of work is complete and management has responded to issues that may have affected the financial statements.

We confirm all Deloitte network firms are independent of the Council. We take our independence and the quality of the audit work we perform very seriously. Audit quality is our number one priority

Our approach to quality

AQR team report and findings

We maintain a relentless focus on quality and our quality control procedures and continue to invest in and enhance our Audit Quality Monitoring and Measuring programme. In July 2019 the Financial Reporting Council ("FRC") issued individual reports on each of the seven largest firms, including Deloitte, on Audit Quality Inspections providing a summary of the findings of its Audit Quality Review ("AQR") team for the 2018/19 cycle of reviews.

We greatly value the FRC reviews of our audit engagements and firm wide quality control systems, a key aspect of evaluating our audit quality. We have further transformed our internal review processes including a new focus for reviewing in progress audits, developing our Audit Quality Indicators ('AQI') which are monitored and reported to the firm's executive, and on enhanced remediation procedures.

Whilst we are pleased that overall our quality record, as measured by external inspections, has improved from 76% to 84%, we remain committed to continuous improvement and achieving as a minimum the 90% benchmark across all engagements. We are however, extremely disappointed one engagement received a rating of significant improvements required during the period. This is viewed very seriously within Deloitte and we have worked with the AQR to agree a comprehensive set of swift and significant firm wide actions. We are also pleased to see the impact of our previous actions on impairment, group audits and contingent liability disclosures reflected in the audits under review and there being limited or no findings in those areas. These continue to be a focus in our training, internal coaching and internal review programmes.

We invest continually in our firm wide processes and controls, which we seek to develop globally, to underpin consistency in delivering high quality audits whilst ensuring engagement teams exercise professional scepticism through robust challenge.

All the AQR public reports are available on its website. https://www.frc.org.uk/auditors/audit-quality-review/audit-firm-specific-reports

The AQR's 2018/19 Audit Quality Inspection Report on Deloitte LLP

"We assessed 84% of the firm's audits that we reviewed as requiring no more than limited improvements, compared with 76% in 2017/18. Of the FTSE 350 audits we reviewed this year, we assessed 75% as achieving this standard compared with 79% in 2017/18. We note that our inspection results show only modest improvements in audit quality."

"We had no significant findings arising from our firm-wide work on internal quality monitoring, engagement quality control reviews and independence and ethics."

"Our key individual review findings related principally to the need to:

- Exercise greater professional scepticism in the audit of potential prior year adjustments and related disclosures in the annual report and accounts.
- Strengthen the extent of challenge of key estimates and assumptions in key areas of judgement, including asset valuations and impairment testing.
- Improve the consistency of the quality of the firm's audit of revenue.
- · Achieve greater consistency in the audit of provisions and liabilities."

"The firm has enhanced its policies and procedures during the year in a number of areas, including the following:

- Through the firm's global audit quality programmes, there has been an increased focus on consistency of audit work across the audit practice. For certain account balances, standardised approaches have been adopted, further use has been made of centres of excellence and delivery centres and new technologies embedded into the audit process to support and enable risk assessments, analytical procedures and project management activities.
- Further methodology updates and additional guidance and training for the audit practice covering group audits, accounting estimates, financial services (including the adoption of IFRS 9) provisions and contingencies and the evidencing of quality control procedures (including EQCR) on individual audits.
- Increased support for audit teams throughout the audit cycle including coaching programmes for teams and greater use of diagnostics to monitor progress.
- Continued focus on the approach to the testing of internal controls. The firm provided additional training and support to audit teams adopting a controls-based audit approach, increased focus on reporting to Audit Committees on internal controls and on the wording of auditor's reports."
