

APPENDIX C - CIL Strategic Projects Progress

Environment Committee, 7th December 2023

Project Name (and lead organisation)	Project outline summary	Allocated delivery year	Completed OR Progressing	Final Spend/ pending allocatio
Community Tree Planting Project (Stroud Valleys Project)	Planting of 5000 trees and hedges across the District, working in partnership with local community and voluntary groups. Creation of native woodland helping to increase biodiversity and wildlife habitats, reduce flood risk and mitigate carbon emissions.	20-21	Completed	£14,000
Stroud to Salmon Springs River Restoration (Environment Agency and	Feasibility, detailed design work and capital delivery of modified river structures to enable fish passage at four former historic Mill sites, where old industrial structures had created barriers to the areas natural functioning ecology.	20-21	Completed	£60,000
Stroud Rural Sustainable Drainage Systems (SuDS) Project	Implementation of Natural Flood Management measures in a number of priority areas in the Stroud District to alleviate flooding and protect/enhance riverine habitats. Works included 'leaky dams' and silt traps help to slow the flow of flood waters.	20-21	Completed	£24,932
Stroud-Nailsworth cycle track (GCC Highways)	Essential refurbishment for important bridge structures along the popular Nailsworth to Stroud cycle route. Together with other essential track improvement works, these critical works have enabled the cycle track to remain safe and open to the public.	21-22	Completed	£116,000
Cainscross Road Cycle feasibility study (GCC Highways)	An in-depth study for the Cainscross road area to identify the specific requirements for the detailed design of improvements needed to make the route safer for cyclists, including a review of the impacts on utilities, traffic signals and water drainage features. The study will open up access further funding opportunities for construction phases.	21-22	Completed	£25,000
Uley, Cam & Dursley Greenway (GCC Highways)	Production of feasibility and design work needed to enable the construction of selected phases of the cycle and pedestrian route that largely utilises the disused railway line between Dursley and Cam, linking the two settlements to the railway station.	21-22	Completed	£25,000
Cam and Dursley Train Station (GCC Highways)	Creation of more than 25 additional spaces at the Cam & Dursley Tain Station car park, along with new Cycle Racks and a smart and modern passenger shelter. The station is an important commuter hub for the area.	21-22	Completed	£71,000
Waste Vehicle In-Cab Technology (SDC Community Services)	Provision of new information technology infrastructure within the districts Waste Collection Vehicle Fleet. In-cab and handheld devices help to revolutionise how waste collections are managed, providing service improvements to residents and environmental efficiencies.	21-22	Completed	£20,000

APPENDIX C - CIL Strategic Projects Progress

Environment Committee, 7th December 2023

Project Name (and lead organisation)	Project outline summary	Allocated delivery year	Completed OR Progressing	Final Spend/ pending allocatio
Nailsworth drainage improvement scheme (GCC Flood Risk)	Significant upgrading of highways and drainage infrastructure in the Nailsworth area to help prevent serious flooding events, as was experienced in 2020 where 38 businesses and 8 homes were badly affected.	22-23	Completed	£52,500
Stroud Outdoor Pool / Lido (SDC Facilities Management)	Improvements to the outdoor pool heating system; better utilisation of waste heat to pipe warmed water to the pool, improving user comfort, helping to widen use and increase opening times.	22-23	Completed	£16,634
Stroud College 14-16 Create Centre (SGS Stroud College)	Establishment of an education faculty specifically for 14-16 year old pupils who struggle with the standard school system (e.g., they may have a neurodivergent diagnosis or suffer from social anxiety). The centre accommodates up to 200 students, promoting vocational learning alongside an enhanced personal support structure.	23-24	Completed	£25,000
Frampton on Severn Cycle Track (Frampton on Severn Parish Council)	Creation of a new safe link from the popular canal towpath to the village. Current pedestrian and cycle link provision is inadequate and is under increasing visitor pressure. The improved route is needed to help to reduce accidents and promote active travel.	21-22	<i>Progressing</i>	£10,000
Archway School and Sports Centre 3G Astro turf Pitch (GCC Education / Archway School)	Delivery of a state-of-the-art 3G Astro turf Pitch, supporting the area's largest secondary school during school hours and open for public use outside of school time. Supported by Sports England, these play pitches and sports facilities are greatly needed in the area.	22-23	<i>Progressing</i>	£150,000
Berkeley Public Realm Design (Berkeley Town Council)	Preliminary town centre redesign works which are the essential first stage in informing the detailed design phases of a public realm redesign project. The aim is to make town area safer and more enjoyable to visit, reconfiguring street layout and providing cycle parking.	23-24	<i>Progressing</i>	£20,239
Dudbridge to Ryeford Cycle Trail Surfacing Improvements (GCC Highways)	Widening and resurfacing prioritised sections of this important cycle trail between Dudbridge and Ryeford, along with improvements to local cycle route signage. Works will help to bring the trail up to as near LTN1/20 standard as possible.	23-24	<i>Progressing</i>	£75,000
The New Barn' Sports & Community Pavilion (Wotton Community Sports)	The construction of a new multi-use sports and community building to improve leisure activities within Wotton PARC, a strategic sports destination for the area. The building will include sports changing rooms, a community cafe, and function and meeting rooms.	23-24	<i>Progressing</i>	£75,000
