Appendix B: Swedish Timber Properties: Consultation Feedback

| Parish | Ward Cllrs | Address | Preferred Option | Tenants/ residents | Ward Cllrs Comments | Town/Parish Council Comments |
|--------|---------------|-----------|---|--------------------|--|---|
| Uley | Martin Pearcy | The Knoll | Redevelop; explore smaller versus larger site | Mixed response | <ul style="list-style-type: none"> • There needs to be clear and comprehensive financials on all options • Weight needs to be given that limits the time period when tenants cannot be accommodated in the area • the Swedish properties were ahead of their time and if refurbished or replaced by modern like timber buildings (which are very sustainable) would be ideal (if finances stack up) • Supports increasing the number of units which is considered positive - but there will be traffic concerns from residents • Need to ensure that the tenants are 'looked after' • Big question is how redevelopment can be funded. | The majority of the Parish Council support the proposed plans on condition that all properties have gardens, parking and access is adequate, and most importantly the remaining tenants are found homes in the village and given the opportunity to return to the Knoll when the project is complete. |
