

THE COUNCIL PLAN 2021 – 2026, OUR VISION FOR THE STROUD DISTRICT

FOREWORD

Stroud district is a unique and beautiful part of the world, a place of stunning landscapes and innovation in business and community-led initiatives, but our district also faces significant challenges: the ecological and climate emergency, rising inequality, and the impacts of the pandemic on our health and wellbeing.

The pandemic reminded us how local government and communities working together can make a real difference to people's lives, providing essential services, supporting local residents and businesses, and helping to ensure everyone in our district can continue to lead safe and fulfilling lives.

Over the last year, we have listened to what people in our district have been saying about the challenges they face, and what is important to them. This is the basis for our new five-year plan, based on three key priorities: the environment, community wellbeing, and our local economy.

At the heart of the plan is partnership and collaboration, shown by the Cooperative Alliance of Labour, Green and Liberal Democrats that has run Stroud District Council since 2012.

We recognise that achieving our plan depends on partnerships – with the county council, towns and parishes, the voluntary and charitable sectors, and local businesses.

The next five years bring much uncertainty. Since 2010 we have seen our funding decrease, and the strains of the pandemic are likely to make this worse. However, we will keep working for the best interests of the district, securing funds to invest in our district, in the people and the places where we live. With your support, there is much we can achieve together to make this district a better place for all who live and work here and face the challenges of our time.

INTRODUCTION

The Council Plan has been developed collectively by Alliance Members, the Strategic Leadership Team and all services across the Council.

In July 2020 we published our 'Recover, Reset and Renew a strategy for the Stroud district 2020-2021'. The work delivered under the strategy focused on recovery and renewal and identifying opportunities to 'join up' processes and engage with our communities and key partners in a conversation to help define our overall priorities.

As a result of this work and the lessons we have learnt from the pandemic, we have asked what good practice looks like and we have taken stock on how the crisis has affected our finances, organisation, residents, businesses, communities and our district. From this, we have determined our priorities and the activity to undertake to ensure resources are directed to where they will be most effective.

The Council Plan has been built on three tiers consisting of our priorities, our objectives and the key projects and activity we will carry out to achieve our objectives.

The Council Plan is not an exhaustive list of everything we will be doing in the next five years, it sets out the critical activity for the council and ensures this activity is focused through our governance arrangements. Elected Members from all political parties will consider the activity within the plan as it progresses through the Council's governance structure.

PRIORITIES

The Council Plan focuses on three distinct priorities:

- Environment and Climate Change
- Community Resilience and Wellbeing
- Economy, Recovery and Regeneration

OBJECTIVES

Each priority has a set of strategic objectives represented in the outer circles.

The Delivery Plan underpins the objectives and outlines the key projects and activities the council will undertake to deliver our objectives.

ENVIRONMENT & CLIMATE CHANGE

Protecting our environment and leading the district to carbon neutrality in 2030

We want to ensure our district is a place where people and communities can thrive, while respecting the wellbeing of all people and the health of the whole planet.

In 2018 the council declared a climate emergency and made the commitment to 'do everything within the council's power' to become a carbon neutral district by 2030. We recognise that this ambition needs a huge amount of work not only from the council but across all parts of the district, and our 2030 Strategy mission is to act as an example in the community, to be an enabler and encourager of positive action. The detailed action plan underpinning the 2030 strategy, as adopted by the council in 2020, has informed the objectives of our plan to take the first crucial steps towards net zero and lay the foundations for the work to come.

We are fortunate in that in our communities there is so much support for making the changes that are needed, and expertise amongst local people, businesses and organisations to help shape solutions, reducing our carbon emissions, and building resilience into our natural surroundings. We also face an ecological emergency, and our plan includes key objectives to protect and enhance biodiversity.

We know we cannot achieve this alone, and through our services, policies and projects, we need to do all we can to collaboratively achieve a just transition to a carbon neutral, resilient, inclusive and equality driven district.

Environment and Climate Change Objectives

EC1. Tackle the Climate and Ecological Emergency: Achieve the commitments set for 2021-2024 of the Strategy to be a carbon neutral and ecologically sound district by 2030

EC2. Biodiversity : Work with local communities and partners to protect and enhance the district's green infrastructure and biodiversity providing accessible environments that people can enjoy and which positively contribute to their good health

EC3. Sustainable Construction and Retrofit: Work with partners to establish Stroud district as a sustainable construction centre of excellence, investing in the skills and capacity in the local economy so public and private buildings across the district can become low carbon and energy efficient

EC4. Mobility / Transport: Support development of an integrated active travel (walking and cycling) and public transport network and the development of electric charging infrastructure working with county and regional partners

EC5. Circular economy: Develop the foundations of a sustainable circular economy for the district by minimizing consumption, reducing the quantity of resources sent to incineration and applying the waste hierarchy; prevent, reduce, reuse, recycle, recover and as a last resort, disposal

EC6. Renewable energy: Increase the proportion of energy generated by renewable sources in the district and work on decarbonizing existing networks

CW1. Community resilience: Support communities to help each other and build resilience through a network of community hubs and other community-led networks, with mental and physical health and wellbeing at its heart

CW2. Affordable homes: Build affordable, energy efficient homes and deliver high quality services for all tenants by investing in the renovation of existing council homes and meet a range of housing needs for those who experience disadvantage and creating a culture of tenant engagement and empowerment

CW3. Community engagement: Strengthen local democracy by developing a culture of community engagement to enable greater involvement of residents, council tenants, communities and businesses in decisions on council services and priorities

CW4. Leisure and Culture Services: Adopt a long term investment plan for leisure services and facilities across the district to ensure everyone has access to good quality leisure opportunities that meet their needs

CW5. Equality, diversity and inclusion: Embed equality, diversity and inclusion as a priority across the Council and the District with targeted support for those who experience the most disadvantage in our communities

COMMUNITY RESILIENCE & WELLBEING

Strengthening and supporting our communities so people feel included and connected

What matters to us is that local people can live healthy and happy lives whatever their background or life situation, and that the places where they live and work can thrive.

Our objectives under this priority are focused on measures that support people to lead healthier and happier lives, tackle racism and inequality, put people at the heart of decision making, enable residents to live in an accessible and inclusive community and ensure our vibrant local communities continue to grow.

Our district is also a deeply rural place of tiny hamlets and farms. We recognise the specific rural challenges many people face, and we want to make sure that access to services and housing is fair wherever you live.

We will tackle housing needs on a variety of fronts, such as: increasing supply of affordable homes of all tenures, action to prevent housing debt in all sectors, action to provide temporary housing where homelessness arises and action to ensure that best use is made of housing stock in all tenures.

Supporting our residents' health and well-being is also more important than ever. Our leisure services are much valued by our communities and have been especially badly affected by the COVID-19 pandemic.

ECONOMY, RECOVERY & REGENERATION

Supporting a thriving and resilient local economy

Stroud District has begun to recover from the economic impact of the pandemic, but significant challenges remain. It is critical that our high streets are supported in their recovery, and that district's economy remains resilient and makes a rapid transition to the low carbon economy of the future. We will continue to support those sectors of the economy that have been most affected, recognising our local strengths in the visitor economy, manufacturing and the creative industries.

Our district has one of the largest numbers of small and medium sized businesses in the county. Our objectives aim to support the creation of local decent jobs, support our market towns and provide assistance for our home-grown businesses, large and small.

The pandemic has seen a groundswell of innovation and energy in our market towns and communities in creating locally led approaches to economic recovery and revival. Our objectives focus on harnessing that energy and finding local solutions to big challenges.

In 2018 we adopted the principles of 'Community Wealth Building', to maximise the value of local assets and enable the benefits of economic development to be retained locally, spend local on goods and services and wealth created by a community stay in the area in which it was earned. Our objectives under this priority will help us to achieve this.

Economy, Recovery and Regeneration Objectives

ER1. Economic recovery: Support our high streets and businesses to enable recovery of the local economy from the impacts of COVID-19 and build foundations for a sustainable and inclusive local economy

ER2. Regeneration: Deliver key regeneration sites across the district, especially brownfield sites and long-term empty properties, for local jobs, homes, community facilities and green spaces

ER3. Investment: Promote the Stroud district to attract investment in key infrastructure and high quality jobs with a focus on environmental technologies, engineering and manufacturing and creative industries

ER4. Support for Businesses: Champion local businesses of all types and sizes that lead on environmental and social good practice and support them to grow, keeping wealth in the district, strengthening local supply chains and offering rewarding local jobs

ER5. Strategic Plan: Adopt the new Stroud District Local Plan

DELIVERY

The Delivery Plan translates the priorities and objectives into tangible work to be undertaken and commitments to be achieved through its lifespan.

Our priorities and objectives are cross-cutting and owned by the whole council, this is reflected in many of the projects and activities not solely being the responsibility of one service, but a number of services.

The Plans will be delivered in times of uncertainty and therefore the Delivery Plan will be reviewed annually to allow for some flexibility and opportunity for redesign to be built into the process.

THE ROLE OF STAFF AND ELECTED MEMBERS

The Council Plan cannot be delivered without the hard work and contribution of our staff. The Delivery Plan outlines the Lead Officers who are responsible for making sure each activity is delivered effectively. The detail of how and when activity and projects will be achieved sits in underpinning documents, such as business cases and project plans. The responsibility for successfully delivering the objectives sits with the Strategic Leadership Team who ensure the right resources and capacity are in place to support delivery.

Elected Members play an important role in considering the key projects and activities through the governance and decision making arrangements for the council. Committees will drive and scrutinise the effectiveness of delivery for the benefit of the district's residents and taxpayers.

Members will also work with officers to provide input and advice and have oversight of delivery through other governance arrangements such as Task and Finish Groups, Boards and Working Groups.

PERFORMANCE MANAGEMENT

The Council Plan will sit at the heart of our Performance Management Framework. The Framework is intended to ensure that we are meeting our milestones and objectives, drive change and improvement across the organisation, enable effective measurement of the Council Plan and provide a golden thread throughout the organisation.

As part of delivering our Council Plan, we shall be monitoring and reporting on progress in relation to the delivery. Progress updates will be provided to Strategy and Resources Committee on a quarterly basis, these progress updates will be published quarterly so residents, communities and businesses can see how we are delivering for them as an organisation.

THE DELIVERY PLAN

The Delivery Plan outlines the key projects and activity we are committed to undertaking in order to achieve our objectives. Projects which are contributing to one or more of the priorities are denoted by the use of the related priority colour
