Age	Positive Children and Young People will have better play areas in which to play in which are more local to them. The play areas will also have an impact on the health and wellbeing of the responsible adult who is taking them to the play area. We need to be mindful of young teenagers and how they are affected by the transformation of these areas.
Disability	Neutral with a potential to be Positive None of the SDC owned play areas have inclusive equipment install in them, but as part of the feasibility study of Stratford Park there is the potential to create an accessible and inclusive play area.
Gender Re-assignment	Neutral impact as play areas are inclusive spaces.
Pregnancy & Maternity	Neutral with potential to be positive The play parks will provide a space for parents to take their when they grow up and if better seating is provided it could be a space for parents to socialise with older siblings.
Race	Neutral impact as play areas are inclusive spaces.
Religion – Belief	Neutral impact as play areas are inclusive spaces.
Sex	Neutral impact as play areas are inclusive spaces.

Sexual Orientation	Neutral impact as play areas are inclusive spaces.
