1. INTRODUCTION

- 1.1 More and more people are purchasing mobility scooters to aid their independence as they get older and/or less mobile and the storage of these items in communal areas is a potential hazard especially around fire.
- 1.2 In recent years, mobility scooters have become increasingly prevalent, especially in the Council's Independent Living sites however, these cannot be stored, parked or charged in communal hallways and corridors.
- 1.3 Whilst Stroud District Council remain committed to supporting tenants and leaseholders who have mobility issues and wish to utilise mobility scooters to increase their mobility, independence and therefore improve their quality of life; zero tolerance with regard to clutter in communal corridors is in operation and the Council want to ensure that guidance and recharging of mobility scooter remains clear.

2. MAIN POINTS

- 2.1 This policy aims to highlight the positive aspects of owning and using a mobility scooter whilst highlighting that the storage and charging must be accomplished safely for all.

- 2.2 Clear guidance is provided on the safe use and storage of mobility scooters in mobility scooter stores, permitted properties and locations in Independent Living sites, general needs and leaseholder accommodation.
- 2.3 The policy will ensure a consistent approach in considering whether permission should be granted to keep a mobility scooter and not refusing permission unreasonably.
- 2.4 It is recognised that this policy is designed to carefully balance the needs of those tenants/leaseholders whose independence on mobility scooters is key to their ongoing independence with the health and safety of all users of the buildings.
- 2.5 The policy covers all aspects of storage and charging of mobility scooters in Council properties and allows officers to manage the safe storage of mobility scooters throughout the district.

3. RISK

- 3.1 The risk is severe limitations to someone's independence if they are refused permission to have a mobility scooter. To mitigate these impacts, the Council will not unreasonably withhold permissions for alterations to a property to allow the provision of storage facilities, ramp, access path or hard standing to a mobility scooter, following an Occupational Therapist (OT) assessment.
- 3.2 In certain exceptional circumstances where the tenant has severe mobility issues and wholly dependent on the mobility scooter to go about their daily activities the Council will consider rehousing into a more suitable property if permission cannot be granted.
- 3.3 Review and continued implementation of this policy will mitigate the risks of non-compliance with regard to fire risk assessments and zero tolerance heightening which may potentially lead to risk of tenants' safety being compromised.

4. CONCLUSION

- 4.1 The policy reinforces the Council's commitment to enabling tenants/leaseholders to keep their independence whilst providing guidance on how and where mobility scooters can be stored, and their batteries recharged.
- 4.2 The policy makes clear that the unauthorised storage of mobility scooters causes hazards in housing blocks as well as being a risk to the health and safety of tenants, residents, visitors, staff and emergency personnel, is also a breach of the tenancy agreement.
- 4.3 The tenancy agreement already states that all communal areas should be kept clear. The reviewed policy will continue to provide clarity to the safe storage, charging and use of the mobility scooters whilst mitigating the risk of fire and health and safety of the building.
- 4.4 The policy supports the Council's ability to meet its obligations for fire risk assessments under the Regulatory Reform (Fire Safety) Order (RRO) 2005.
